

TEMPORARY SUSPENSION OF COVID-19 TESTING 'FOR TRAVEL' AT AAR HOSPITAL

The management of AAR Hospital would like to inform the public that we have temporarily suspended COVID-19 testing for purposes of travel at our facility.

Following consultation with the Ministry of Health and Panabios, the Hospital took this decision after discovering and reporting an issue regarding the generation of TT codes.

The issue DOES NOT involve the accuracy of the COVID-19 tests done at AAR Hospital in any way.

We are working together with the Ministry of Health and all other relevant government institutions to resolve this issue as quickly as possible.

Please note that only COVID-19 tests for purposes of travel have been suspended temporarily as we sort the issue. Antigen testing and PCR tests for other medical purposes are still being offered.

We regret any inconvenience caused.

The Management
